

CALL FOR EXPRESSION OF INTEREST (EOI)

Title: Conduct a Gender Analysis of Budgets of Metropolitan Municipal District Assemblies

Type of Contract: Individual Consultant

Duration: On call

Deadline: March 2, 2022 at 23:59

BACKGROUND:

Ghana over the last 13 years have experienced steady growth that has been strongly bolstered by the discovery of offshore oil reserves, which is resulting in an average of 7 per cent growth, until COVID-19. Inequalities however remain a challenge in all social and economic sectors, with many research studies and reports giving indication to a worrying widening inequality gap in Ghana. The vulnerable groups in the population are those who end up bearing the rough brunt of this phenomenon. Many have argued that Government and the local government sector agencies must be intentional in the implementation of policies, programmes and projects to address the needs of the poor and vulnerable in the population. One such policy proposition is to ensure national planning and budgeting processes that primarily manifest in the preparation of the District Medium term development plans (DMTDP) are intentionally addressing the needs of vulnerable.

The Ghana CSOs Platform on SDGs seeks to build capacity of citizens and civil society organisations to use local level data including Citizen-Generated Data (CGD) and the District Development Data Platform to promote gender responsive planning and budgeting. This is a collaborative action with Ghana Statistical Services and GIZ, with the overall purpose being to provide space for Civil Society actors to coordinate efforts, jointly advocate for change, share information, learn best practices and monitor progress in achieving the localised global goals as reflected in the DMTDP. The exercise will also seek to promote accountability mechanism in 21 MMDAs.

OBJECTIVE OF THE ASSIGNMENT

The Platform is seeking the services of a consultant;

- To identify and present an analysis of how gender issues have been addressed through the budget and expenditure patterns of 10 MMDAs.

TASKS

The Consultant shall:

- **Conduct a gender responsive analysis of the budget of selected district:** A review of the budget of the selected MMDAs to understand the extent to which allocations and expenditures align and favour gender empowerment.
- Provide examples of how to disaggregate data on gender-related expenditures

DELIVERABLES:

The Consultant undertakes to;

- Submit a report detailing how Gender Responsive MTRDF of selected MMDAs are.
- Participate in Gender Responsive training for MMDAs/CSOs as a supporting facilitator
